

GENERAL DESCRIPTION

Illustrating Stata is a reduced form version of our Up and Running in Stata course. It provides participants with an overview of the Stata commands necessary to enable them to carry out data analysis and data management in Stata. The course covers everything from the very basics, in order to get one up and running in Stata, to an overview of the available Stata commands for preliminary data analysis, data management, importing and exporting data formats and the creation of graphs in Stata.

In contrast to our Up and Running in Stata course however, Illustrating Stata does not include specific applied Lab based exercises at the end of each individual session. Despite this, participants are strongly encouraged to bring their own laptops with them to the workshop, in order to be able to replicate in real time the commands being illustrated by the course leader.

TARGET AUDIENCE

This course is invaluable to both professionals and researchers (working for example, in Biostatistics, Economics, Epidemiology, Social and Political Sciences and Statistics), wishing to use Stata for applied statistical analysis, data management or data visualization.

PREREQUISITES

Familiarity with PCs and a working knowledge of English. Participants with previous experience of other statistical software will benefit enormously from this course.

PROGRAM

SESSION I: GETTING STARTED

1. Stata's GUI
2. File types in Stata
3. Working interactively in Stata
4. Saving output: the log file
5. Interrupting Stata
6. Loading Stata databases
7. The Log Output File
8. Saving databases in Stata
9. Exiting the software

SESSION II: PRELIMINARY DATA ANALYSIS

1. A preliminary look at the data: *describe*, *summarize* commands
2. Abbreviations in Stata
3. Stata's syntax
4. Constrained commands
5. Summary statistics
6. Statistical Tables: *table*, *tabstat* and *tabulate* commands.

SESSION III: DATA MANAGEMENT

1. Renaming variables
2. Selecting or eliminating variables
3. *sort* command
4. Creating sub-groups: the prefix *by*
5. Creating new variables: *generate*
6. Operators in Stata
7. The command *assert*
8. Missing values in Stata
9. Modifying variables: *replace*, *recode*
10. Creating Labels: variable labels and value labels
11. Creating dummy variables

SESSION IV: IMPORTING DATA FROM SPREADSHEETS

1. *Import Excel* and *Export Excel* commands
2. The *insheet* and *outsheet* commands
3. Importing in SPSS Files
4. Redefining missing values
5. Dealing with "messy" strings

SESSION V: GRAPHICS – A BRIEF INTRODUCTION

1. Stata's syntax for two way graphs (*bar*, *histogram*, *scatter*)
2. Saving and exporting graphs
3. Useful *graph* commands
4. Personalizing a graph
5. Stata's Graph Editor

APPENDIX A (*time permitting*)

1. Merging data bases
2. *do* files

DATES AND LOCATION

The course will take place in the following locations:

Bratislava, 22nd June 2020
Zagreb, 27th November 2020

REGISTRATION FEES

- Full-Time Students*: € 95.00
- Academic: € 175.00
- Commercial: € 350.00

*To be eligible for student prices, participants must provide proof of their **full-time** student status for the current academic year.

Fees are subject to VAT (applied at the current Italian rate of 22%). Under current EU fiscal regulations, VAT will not however be applied to companies, Institutions or Universities providing a valid tax registration number.

Course fees cover: teaching materials, a temporary course licence of Stata valid for 30 days from the beginning of the course, light lunch and coffee breaks.

Although this course differs slightly from our standard format in that the program does not contain (due to the one day duration of the course) explicit hands-on sessions, we strongly recommend that participants bring their own laptops along, so as to be able to actively participate in the demonstrations illustrated by the course leader.

The number of participants is limited to 15. Places, will be allocated on a first come, first serve basis. The course will be officially confirmed, when at least 8 individuals are enrolled.

Individuals interested in attending the training course, must return their completed registration forms to TStat by the

2nd June 2020 for the Bratislava course
7th November 2020 for the Zagreb course

Further details regarding our registration procedures, including our commercial terms and conditions, can be found at <https://www.tstattraining.eu/training/illustrating-stata/>.
